Reversed Realities

BEFORE YOU LOOK

1. What do you envision when you think about realities being reversed or flipped upside down?
2. How might the image portray the juxtaposition of familiar and unfamiliar elements in a reversed reality?
3. What emotions or thoughts do you associate with the concept of experiencing life from an entirely different perspective?

This image presents a stark and surreal depiction of role reversal, where a cow walks freely past humans confined in battery farm cages, their faces obscured by masks. Set in an industrial environment, the scene is designed to provoke thought and stir debate on the ethics of animal farming.
