Screens of Self

BEFORE YOU LOOK

1. How do you think digital screens influence our understanding and expression of self-identity?
2. What might the image depict to show the relationship between technology and personal reflection?
3. What emotions or thoughts do you associate with the idea of viewing oneself through the lens of a screen?

This image captures a teenager in their room, immersed in a digital environment with multiple screens displaying various facets of their digital life, including social media profiles, video games, and virtual reality gear. The room highlights the profound impact of digital worlds on personal identity.
