# Silent Greetings

**BEFORE YOU LOOK**

1. What kinds of gestures or expressions do you imagine convey greetings without words?
2. How might the image depict the subtlety and depth of non-verbal communication?
3. Have you ever experienced a unique way of greeting someone? If so, what was it?

*This striking image captures a student with their hands over their mouth, the word 'helo' scribbled on one hand. The blurred background focuses attention on the student's expressive eyes and the message, creating a powerful visual metaphor for communication and identity.*
