Solitary Human

BEFORE YOU LOOK

1. What feelings or thoughts does the idea of being solitary evoke for you?
2. How do you think the concept of solitude will be visually represented in the image?
3. What do you imagine about the life or story of a solitary human?

This image captures a lone figure in a space suit standing amidst the ruins of a deserted city. The cityscape, crumbled and overgrown, creates a stark contrast with the modernity of the space suit. This man, holding a simple stick, appears as a symbol of human resilience and adaptability in a post-apocalyptic world where nature reclaims the remnants of civilization.
