Tidal Force

BEFORE YOU LOOK

1. What natural phenomena do you think might be depicted in an image with this title?
2. How do you think the concept of a "tidal force" could be represented visually?
3. What emotions or ideas do you associate with the power and movement of tides?

This image captures a coastal city's innovative approach to renewable energy through the implementation of giant tidal energy turbines. Engineers of diverse backgrounds are seen on floating platforms, monitoring and managing the energy production.
